Classical Civilisation

'Women: The Reality Behind the Myth'

Explore how Ancient Greek women were imagined in myth and how they really lived. From sorceresses and 'monstrous hybrids' to everyday roles in family, religion, and society; this course explores the stories and lived experiences of women in the ancient world.

Homer & Tragedy

Reading Group

This new course has been designed specially for highly-skilled students who already have extensive experience in reading Greek and want to focus on reading through a heavily prepared text, with little or no pause for grammatical explanation.

For more information about the JACT Durham Greek & Latin Summer School, including how to register, please visit our website, or contact the Course Secretary on
